Finland in Winter: Packing Checklist

Designed for winter travel in Finland, but applicable to cold-weather destinations worldwide.

Clothing Essentials:

- Insulate, waterproof winter coat
- Thermal base layers (tops and bottoms)
- Mid-layers (fleece or wool sweaters)
- Insulated, waterproof boots with good traction
- Wool or thermal socks
- Hat that fully covers ears
- Scarf or neck gaiter
- Insulated gloves or mittens

Accessories:

- Daypack or small backpack
- Sunglasses (snow glare is real)
- Reusable water bottle (insulated preferred)
- Portable phone charger (the cold drains batteries faster)

Optional but Helpful:

- Hand warmers
- Micro-spikes for icy sidewalks
- Swimsuit (for sauna and spa visits)
- Small crossbody or inner pocket for keeping phone warm

Packing correctly makes the difference between tolerating winter and actually enjoying it.
